JAPS ATTACKING

The Russian Positions at Mukden

BRITISH DEMANDS YIELDED TO

Japs Have Completed their Seige
Works at Port Arthur

BRITISH DEMANDS YIELDED TO.

St. Petersburg, Sept 16th.—Russia has given her answer to the American and British notes on the subject of contraband of war. Her answer was communicated to the British Ambassador Harding this afternoon verbally by Foreign Minister Lansdorff and bears out the prediction of subject by the Associated Press. The ambassador was informed, in effect, that according to the decision of the commission which has investigated the subject, the government has agreed to view as of a conditionally contraband character food stuffs and fuel, and that supplementary instructions had been issued to the Russian naval commanders and prize courts calling their attention to the misrepresentation which had been placed upon the prize regulations. These instructions, Sir Charles Harding was informed, make a clear distinction between the articles enumerated in article six of Russian prize court regulations and which are susceptible to dual use, like fuel and foodstuffs, the assumption being that if they are addressed to private persons or firms in an enemy's port they are not intended for warlike purposes but their innocent character brings the subject to suspicion, if the ships papers and the circumstances are irregular. In effect the new instructions will place the burden of proof that the food stuffs, etc., are designed for belligerent purposes upon the captors. The new instructions will involve a reversal of the judgement of the Vladivostock prize court by the Admiralty court in the case of provisions confiscated. A direct answer to the American note is expected to-morrow.

JAPS SIEGE WORKS COMPLETED.

Chefoo, Sept. 17th.—A Jap who arrived here to-day reports that the citizens of Dalny on Sept. 15th expected that the general attack on Port Arthur would be renewed on the following day. He has reliable information to the effect that the Japs siege works at Rih Lung Shan and Ki Kwanshan were completed on Sept. 15th. Yankitang, which is a village at Pigeon Bay and has been occupied by the Russians, has been evacuated by them secretly. Japs have not occupied the village. Five hundred cavalrymen from Ta Lung Shan have not returned. It is believed that the fortress there has been completed.

Gen. Kuroki's headquarters in the field, Sept. 14th, via Fusan, Corea, Sept. 17th.—The Japanese front is now some miles north of Liao Yang, almost half way to Mukden and confronting Gen. Kuropatkin's outpost lines. Gen. Kuropatkin it is believed is removing his headquarters to Harbin. Both armies are satisfied to suspend hostilities for a time. They are apparently exhausted after the battle of Liao Yang.

RUSSIA'S ENORMOUS LOSSES.

Paris, Sept. 17th.—The exact figures of the Russian losses in killed wounded and missing in the operations before Liao Yang from Aug. 13th to Aug. 16th have been received by the General Staff. According to the Times' St. Peterburg correspondent they are, 2 generals, 156 officers and 21,800 soldiers. In addition 133 guns were lost. Material losses include fortifications costing \$30,000,000.

JAPS ATTACKING.

Mukden, Sept. 17th.—Japanese are reported to be advancing on both flanks from the east, southeast and southwest. The outposts are closely engaged twenty miles southeastward, there being almost constant skirmishing. Indications point to another great battle in the vicinity of Mukden. Russian troops occupy all the surrounding villages. Refugees are flocking into the city, the Chinese among them complaining of severity on the part of the Japanese.

ALBERTA APPLES

Mr. Thos. Daly, of Clover Bar, brought to the Bulletin office on Saturday an apple of the Duchess of Oldenburg variety which was grown on his farm at Clover Bar. Mr. Daly has two apple trees which he planted four years ago, and which are now growing vigorously, being about eight feet high. They are planted on level prairie, and have no protection whatever. Before last year the frost cut down most of the new growth, but this last year the new branches survived and with this year's growth the trees are very much larger. This spring both trees were covered with blossoms, and the fruit appeared. While still small all the apples but the one fell off. The fittest doubtless survived, and was picked by Mr. Daly on Friday. Measured in the Bulletin office it was found to be 23-4 inches in diameter, and 81-4 inches in circumference. The apple is well saved, and has considerably more color than the regular duchess apple C. W. Mathers had previously photographed the apple as it hung on the tree. This is the first apple of the kind as far as is known, and is the largest apple of any kind grown in Alberta. Several crab-apple trees have borne fruit in Edmonton both this year and in previous years. The trees stand in an open plot of ground and are not protected in any way by other trees. Up to the present the trees have wintered as best they could, having been given no protection from the frosts.

Unsuccessful efforts have been made to grow apples in this district. Mr. Daly believes that they have failed on account of the trees being planted in the black muck. He believes that the tree thrives better and the growth is harder by having them planted in black earth and sub-soil mixed.

This year Mr. Daly got first prize at the Dominion Exhibition at Winnipeg for the best oats exhibited. He has shown the world that the Edmonton district can produce the best oats, and he now intends to show the world what can be done in the line of apple cultivation.

Defrauding the C. P. R.

Albertan:

The report that more than 100 conductors on the C. P. R. are to be dismissed on account of the reports of some spotters who have been employed by the company has caused the greatest amount of excitement among railway men and others in the city.

The excitement is all the greater on account of the fact that already one man in Calgary has received notice of dismissal and that six others have received notice in an indirect way that they have taken their last trip on the line.

The seven men are all freight car conductors. One is on the main line. Four are on the north and south lines. Two who are on the list are in the Calgary division but do not reside in Calgary.

What is regarded as the most outrageous of the cases was in connection with the Calgary baseball team. They are said to have travelled from town to town, and the Company did not realize a cent for the fare. The Thell operatives travelled as one of the batteries, and sent in detailed reports.

The following is an explanation of the case:

The Calgary baseball team went to Red Deer on Dominion Day and on the following day went to Strathcona. There was a terrific jam at the depot, and Manager Kerr, who was handling the funds, got left at the post, the train starting out as he was at the wicket getting the tickets for the trip. The Calgary men went on to Red Deer without the tickets. On the day following, as the manager did not catch up with the team they went on to Strathcona, their explanation apparently being accepted by the conductor.

There is consternation among the railway men. There is a report that the action in connection with the freight conductors is just preliminary to the same action among the passenger conductors, and it is stated that there may be something doing in the Calgary district, but that of course may be only a rumor.

Steel Ranges

Ross Brothers, Limited, have Steel Ranges from \$30 to \$60. They have a first class full No 19 Steel Range,

Made in Canada

With Copper Reservoir, High Enclosed Closet, fitted to burn either wood or coal at \$48. This Range has an extra large fire box and is well suited for town or country use. We also have ranges without high closets very much cheaper, that have very large ovens, large fire places and are built especially for farmers use.

It seems absurd to us that Steel Ranges can be sold at prices nearly double what we are asking, that have not got nearly as many good points to recommend them as our \$48 Ranges. Our \$48 Range is heavier, larger both in oven and fire place,

And we Guarantee

That our Castings will not warp out of shape nearly as soon as some of the much vaunted higher priced Cook Stoves or Ranges

Why, you fit up a whole kitchen with us for nearly the price you are asked for a Cooking Stove or Range alone. We will convince you of this fact if you want a Range and will be pleased to show you the goods at our store.

IMMIGRATION**TO NORTHERN ALBERTA**

Duluth Immigration Agent Speaks of his work among United States farmers

J. H. M. Parker, Canadian Immigration agent at Duluth, Minn., left that city two weeks ago with a party of thirty-seven people for a trip through Western Canada. Twenty-five of them were actual settlers the remaining twelve taking the trip to see the country, make investments, or acting as agents for farmers who could not spare the time just at this season of the year to visit Western Canada. Three members of the party, J. P. McDonald, of the Minneapolis Log and Lumber Company, Duluth, D. Tarter, of Iron River, Wisconsin, and Mr. Lawrence, from Virginia. Other members of the party who have not settled in Canada elsewhere will visit Edmonton in the course of a day or so, before returning home.

Mr. Parker has been in Duluth for a number of years, and in that time a very large number of settlers from Minnesota have settled in the Edmonton district. In his Duluth office is a reading room where are on file copies of Western Canada papers. A very large number of people take advantage of the reading room and much good results. During the winter Mr. Parker makes a thorough tour of the Central States and delivers lectures on Western Canada, illustrating them by lantern views of the West. He finds this is a most effective method of advertising our resources. The farmers see conditions as the photographs show them and are convinced that the lecturer is not over-estimating the natural resources or growth of the country. Mr. Parker has not been using views of Edmonton or Northern Alberta, not having any. If the local authorities would furnish lantern slides which could be procured from our local photographers very reasonably, Mr. Parker would use them in his lectures to great advantage to this district. It would be necessary that a short terse explanation of the scene be written on the photograph, so that the audience could see at a glance just what the scene was and what was of special interest in connection with it. For instance the city of Winnipeg is shown in a variety of large photographs in the different stages from 1870, to the present day.

Everywhere in the States greatest interest is shown in Northern Alberta and in Edmonton, which all recognize will be the second Winnipeg of Western Canada, and the leading territorial city. It is a well known fact that the land in the Saskatchewan valley is the richest in the West. The district has been getting numerous land seekers this year, but nothing like the number it should have got. Settlers usually ask the immigration authorities where will we go to get Government lands near the railroad; can we get them at Edmonton? They are necessarily told that homesteads cannot be secured except by going out a considerable distance. This deters many and drives them to look for farming lands suitable to them in other points of the West. It does not surmount the difficulty to tell them that the Canadian Northern is being constructed through that country. The great difficulty is the long drives that actual homesteaders have to take to inspect these lands. Several days is required, and the settler cannot afford the time or the money to take a rig and personally inspect the lands and he will rightly not fyle without inspection. The numerous settlers the Edmonton district is receiving are in many cases those who sent an agent, one of their number, to

Western Canada, to make an extended trip and spy out the country thoroughly. Invariably these people select lands in the Saskatchewan valley. Once a railway reaches Edmonton, Mr. Parker declares that the country on both sides of it for thirty and forty miles back will be settled closely in one or two years. He expects a large flow of immigration from all parts of the States next spring to Western Canada. At present the lack of facilities for settlers getting into the homestead country is deterring hundreds of American farmers from going in there.

A number of Mr. Parker's present party have settled along the Prince Albert branch; near Ponoka, on the Calgary and Edmonton line; and on the Clareholm flats in Southern Alberta. This last is a splendid wheat country, and attracts many American farmers.

Mr. Parker's present party stopped first at Winnipeg, then they came on to Indian Head; They visited the Experimental Farm which was an eye-opener to them. The party stopped at Regina and Calgary, and took long drives into the country along the line of the Calgary and Edmonton Railway. Leaving Edmonton and other points along the line where many stopped off, the party will visit Southern Alberta before returning home. Immediately on returning Mr. Parker goes to Sparta, Wisconsin, to conduct a party of forty farmers, mostly the heads of farmers, on a trip through Western Canada. The real estate men of the United States invariably do all possible to injure Western Canada, and as it gives the immigration agents a chance to explain the true state of affairs, their opposition does not really amount to much. The farmers that the immigration officials prefer to get into Canada are the German, Scotch, Norwegians and Swedes. It is claimed that these and especially the Germans and Swedes, make the best settlers, get most from the land and build up splendid farms for themselves.

What you want up here in Western Canada, said Mr. McDonald, is release from the Canadian Pacific monopoly. You want railroads and competent railroads, and the prosperity of the country all depends on how quickly you get them. The Canadian Northern will do much for you, but the Grand Trunk Pacific should do much more on account of its transcontinental character. Mr. McDonald is engaged in the lumber business, being connected with the Minnesota Log and Lumber Company. He is taking the present trip through the West for the purpose of investing in Canadian lands. This is his first trip through Western Canada, and he is very enthusiastic regarding it. Had a person told him exactly as conditions existed in Western Canada, before he came here, he would not have believed it. The thousands of acres of stooked grain all over Western Canada, speaks eloquently for the fertility of the soil. In coming to Edmonton he expected to see a town of frame buildings and of the cheaper kind at that. Imagine his surprise at finding a city of Edmonton's importance, and with the great future that is in store for it. So pleased has he been with his trip through the West that he intends revisiting many points before returning home. Twenty weeks instead of twenty days would be too short for an inspection of even the country along the railroad lines. He was specially struck with Canadian hospitality to the land seekers from the south. The hotel accommodation afforded in the small as well as in the large towns far exceeded his expectations. He returns to Duluth thoroughly impressed with the great future that is in store for Western Canada, and promises to do all he can in spreading about the true stories of Western Canada's almost limitless natural resources.

Dr. Tarter, of Iron River, Wisconsin, is another member of the party.

He came to Western Canada at first with the intention of looking up investments in ranching property. Since his trip through the country he has changed his mind and will now invest in agricultural lands.

Mr. Lawrence is looking up a location for a large settlement of Virginians.

C. T. Thoebus, of Sparta, Wisconsin, a member of the party, is expected in the city in a day or two. He returns shortly to Sparta with Mr. Parker, to bring out a large party of farmers from that district.

David Rieff, of Lafayette, Ind., is making a general tour of the West, and spent some time in this vicinity a couple of days ago. He is very favorably impressed with the Edmonton district, preferring it greatly to any other part of the West.

Inspection trips of this kind, by American farmers and business men through Western Canada have a great and far-reaching influence for good. In this way immigration is stirred up among the best classes of settlers.

AT THE CHURCHES

Rev. D. G. McQueen occupied the pulpit of the Edmonton Presbyterian church yesterday morning. The evening service was taken by Rev. Dr. Stalker of the First Presbyterian church of Calumet, Michigan. The Doctor preached from the subject "Forgetting those things that are behind, I press toward the mark for the prize of the i h calling of God, in Christ Jesus." The choir rendered an anthem and Miss Webster sang a much appreciated solo.

The Christian Endeavor Society meets this evening and a large attendance of the young people is requested.

Communion service will be held in the church three weeks from yesterday.

The Baptist church service in the evening was taken by the pastor Rev. A. M. McDonald. He preached on the subject "A manly religion."

In the College Avenue Methodist church Rev. C. H. Huestis preached both morning and evening. In the evening the choir rendered an anthem and Dr. Michalls a solo.

The Epworth League society meets this evening. A debate will take place, the subject of which will be resolved, that the Englishman has a keener sense of humor than the American.

Owing to the illness of Rev. C. V. Hall, Rev. Principal Riddell of Alberta college preached in the Kinistino Avenue Methodist church, the choir rendered an anthem. In the morning the service was taken by Dr. Nicholls.

Rev. Huestis is making arrangements for supplying for Rev. Mr. Hall who will be laid up for about two months.

REPORT DENIED

LORD DUNDONALD

Had Nothing to do with the Framing
of the Militia Bill. Was Opposed
to it

Bulletin Special Dispatch.

Ottawa, Sept. 19th.—Sir Frederick Borden says that the report that Dundonald had anything to do with the Militia Bill is untrue. Dundonald was not in sympathy with the bill, which in fact was the origin of all his troubles which finally necessitated his dismissal.

LARGE REWARD

OFFERED BY THE GOVERNMENT

For the Capture of the Canadian Pacific Hold up Men

Bulletin Special Dispatch.

Ottawa, Sept. 19th.—A proclamation will be issued at once by the Dominion Government offering a reward of \$5,000 for the capture of the bandits who held up the Canadian Pacific train at Mission Junction and robbed the mail car.

A SHORT STRIKE

MEN GET AN INCREASE

Company Made an Offer which the Union Decided to Accept. Men Back at work

Bulletin Special Dispatch.

Winnipeg, September 19th.—The strike of the boiler makers and their helpers turned out to be only of short duration and was settled on Saturday evening. As a result the men went back to work this morning. The basis of the settlement is that the strikers receive an increase of one cent per hour all round, the offer of the advance was made by the company on Saturday morning and was accepted by the strike.

ANOTHER FIRE

THREATENED HALIFAX

Started this Morning Along the Water Front Doing Considerable Damage

Bulletin Special Dispatch.

Halifax, Sept. 19th.—Another water-front fire this morning destroyed the eastern end of the warehouses of Pickford and Black, steamship agents; Black Bros. hardware warehouse, and Borcham's sale loft. The damage so far is \$75,000.

C. N. CONSTRUCTION

HELD UP

Injunction against Contractor Robinson Granted by Judge Harvey

Bulletin Special Dispatch.

Regina, N.W.T., Sept. 17th.—An interim injunction was granted here yesterday by Mr. Justice Harvey on the application of McKenzie and Mann, restraining Robinson, of St. Louis, Mo., subcontractor for a large portion of the Canadian Northern road extending through Assiniboin, Saskatchewan and Northern Alberta, from Kamsack to Edmonton from continuing on the line of railway or in possession of the company's outfit and materials or his own. These latter by the terms of the contract being transferred to the plaintiffs as security for the due performance of his contract. Robinson had the contract for grading and track laying, pile and trestle work construction, and filling over of timber culverts. Affidavits filed show that grading was imperfectly done, that sufficient force was not employed, and workmanship poor. Track laying which was to keep up with the grading, was fifty miles in arrears, and that coming frost would soon stop grading and track laying, and ice in the Saskatchewan in winter would undoubtedly carry away the false timber work now erected preliminary to steel work for bridges. Upon granting of the injunction, MacKenzie and Mann will at once put on a force of men, and using plant now on the ground, proceed at once to lay as much track as possible before the frost sets in. It will be finally argued here next Friday.

**The Canadian Northwest
Homestead Regulations**

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made where the district in which the land to be situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said lands.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substan-

ficed. The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information. Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia may be obtained upon application to the Secretary of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

—Train on time.

—Saturday night's train was one of the heaviest this year.

—Jasper Lodge A.F. and A.M. holds a special meeting at the Masonic Hall this evening for a lecture on Masonry.

—Four sisters arrived on Saturday from France. They left for Morinville this morning, where they will teach in the new convent.

—The first bonspiel of the Alberta branch of the Caledonian Curling Club will be held in Calgary on January 29th. Edmonton will be the next place of meeting the following winter.

—A petition was circulated in the Roman Catholic church yesterday asking for the canonization of Pope Pius, IX., who was pope before Leo XII. Roman Catholics all over the world are signing the petition.

—Thos. Robson and Wm. Hore, of Lindsay, Ont., arrived in the city last night. They are taking a trip through Western Canada and are greatly pleased with the inducements offered by Western Canada for the homesteader.

—A full rehearsal of the Confederate Spy will be held in the rink this evening commencing at 7.45. The plan for this entertainment will be at Archibald's drug store, commencing September 28th. All seats will be reserved; prices, 75 and 50 cents.

—A. Carey, of Duluth, and J. J. Welch, of Seattle, arrived in Edmonton yesterday from the Pembina, where they went to inspect the district. They will locate on lands in that district to-day, and will move in with their families and effects this fall.

—John S. Elliot, of Inwood, Thos. Herron, of Herron's Mills, and Peter Reid, of Hiddesville, are three Ontario farmers who arrived in Edmonton Saturday evening in the course of a trip through the West. They will spend a couple of days in this district.

—H. Newton, of Texas, left on Saturday for the Pembina, with a load of provisions and supplies where he has located. He will build a house and barn. He will return shortly and take out a drove of sheep, which he has purchased from M. Groat, Edmonton.

—Rev. C. V. Hall, of the Kinistino Avenue Methodist church, met with a very serious accident on Friday. While taking a horse to the country it kicked him on the leg breaking it above the knee. He will likely be laid up for six weeks or two months. Arrangements are being made for supply for him during his illness.

—Lenny Goodridge and W. Agar, of Edmonton, and Wes. McKernan and A. McMann, of Strathcona, took a shooting trip to the Hay Lakes Wednesday, returning on Friday. They bagged two hundred and fifty five ducks. During the whole of the trip not a single chicken and only a few partridges were seen. Chickens are very scarce in this district, but are reported numerous down the line.

—Tom L. Graves, Troy, Kansas, and B. A. Shaver, of Red Oak, Iowa, arrived in the city Saturday evening. Both gentlemen are delegates appointed by a number of farmers in their particular districts to visit Western Canada and select homestead lands for them. They are greatly pleased with the evident resources of this district and Mr. Graves has returned to Kansas to make arrangements for bringing out a large party of farmers to this district.
